Introduction

This guide shows how to perform “Discloser” activities in the Huron system. The disclosure profile is the focal point of the Huron system for the discloser. It provides a summary of discloser’s interests and other outside activities. The Huron Pre-Approval Request process will be utilized to meet the requirements of System Regulations 31.05.01 and 31.05.02.
Navigation and Basic Tasks (Dashboard)

To log in, please click [here](https://tamu.huronresearchsuite.com/) or copy and paste the following link in your web browser to log in using your SSO credentials:

When you first log in, you will be on your Dashboard, which is the starting point for finding items and performing many basic tasks.
To find key items
From your Dashboard, you will see:

**My Inbox**: Items that require you to take action.

**My Reviews**: Items assigned to you to review if you are a reviewer. These are a subset of the items in “My Inbox”.

**Recently Viewed**:
- **Recent**: The last several items you viewed. Scroll through this list to find an item you worked on recently.
- **Pinned**: You can pin the items in the Recently Viewed section for quick and easy access. This is where those pinned items are listed.

**Personalize Table**: You can alter the tables displayed on the dashboard by using the Personalize Table gear icon.
Pre-Approval Request

A pre-approval request allows you to submit a request to participate in outside activities (such as board service, outside academic appointment, expert witness, foreign collaborations, etc.), which is then reviewed by the appropriate individuals before making a determination.

The pre-approval request is pro-active in nature, wherein you must create requests in Huron system and receive approval before you begin to participate in those external activities. The pre-approval requests are electronically routed for review and approval by the appropriate reviewers. Based on the details of the pre-approval request submitted, the reviewers will make an appropriate determination.
Pre-Approval Request Process

When you submit a pre-approval request, you will be notified if it is approved or disapproved. The approved Pre-Approval Requests appear on the Approved requests section in your disclosure profile. Once you have completed the external activity mentioned in your pre-approval request, you can click the Mark Complete button. Pre-Approval Requests marked as complete will then be removed from the Approved requests section in your disclosure profile.

Note: Historical records of submitted requests will still be available for future reference in the Disclosure Profile workspace, under the Pre-Approval Requests tab.
Create and Submit a Pre-Approval Request
A pre-approval request allows you to submit a request to participate in certain activities, which is then reviewed before making a determination. **You can only select one activity in a pre-approval request.** If you have more than one activity that you need to request permission for, you will need to submit a separate pre-approval request for each activity.

1. From your **Dashboard** tab, click on your **Disclosure Profile**.
2. From the **Disclosure Profile** workspace, click **Request Pre-Approval**.
1. Enter a name for this pre-approval request. This is a free-form field, so you can create any appropriate title (Examples: Consulting for Apple, Unpaid Foreign Collaboration with Imperial College of London, Expert Witness for Google, etc.)

2. Select the type of pre-approval request that you want to submit. The type of request that you select here drives the questions that you will have to complete for the remainder of the pre-approval request form.
