Tips/Lessons Learned for Submitting Proposals

Listing Prior NSF Support

An NSF proposal was recently returned without review because a Co-PI did not list prior NSF support. Remember that if a PI/Co-PI does not have prior NSF support, a statement still needs to be submitted. A statement similar to the following can be used: (Faculty name) has no prior NSF support in the past 5 years.

2nd Texas A&M ENG-LIFE Workshop – April 24, 2015, Receiving Abstracts Now

The Texas A&M research community is invited to the 2nd Texas A&M ENG-LIFE workshop on April 24th (Friday from 8:00 a.m. – 4:30 p.m.) at the Texas A&M Health Science Center campus on Highway 47. Following the successful workshop in the fall of 2013 where more than 120 participants attended, the organizing committee (see below) hopes this event will bring together researchers from diverse disciplines, promoting multidisciplinary interaction and scientific communication in the field of engineering and life sciences. The workshop flyer can be found at cpi.tamu.edu/resources/eng_life_workshop/.

Abstracts for poster presentations are now being accepted and are due March 29th. This will be a great opportunity to showcase individual research and provide a mechanism for students and researchers in different fields to engage each other. Although there is no registration fee, registration is still required. The featured speaker will be announced soon. More information can be found at http://biomems.tamu.edu/eng-life/.
