Reminder: New Version of PAPPG (NSF 16-1) is Now in Effect

The new version of the NSF PAPPG went into effect on January 25, 2016. You can view the new PAPPG, including the Grant Proposal Guide (GPG), on the NSF website. The website has a section on significant changes and clarifications.

Reminder: NIH & AHRQ Grant Application Changes for Due Dates On or After January 25, 2016

This notice informs the biomedical and health services research communities of planned changes to policies, forms and instructions for grant applications submitted in 2016.

The planned changes focus on the following areas:

- Rigor and transparency in research
- Vertebrate animals
- Inclusion reporting
- Data safety monitoring
- Research training
- Appendices
- Font requirements
- Biosketch clarifications

Some of the new policies require additional data collection and updates to our application forms. We have received approval from the Office of Management and Budget to make the needed form updates and we expect to have system support and guidance for these updates in place by March 25, 2016 (NOT-OD-15-146).

In order to move forward with the subset of policies which must remain consistent for all research applications in a funding year, we will implement the policy and guidance changes in two phases.

- **Phase 1**: Implements a subset of the policy changes using existing (FORMS-C) forms and updated instructions and will impact due dates on or after January 25, 2016.
- **Phase 2**: Completes the implementation with the introduction of new (FORMS-D) forms and instructions and will impact due dates on or after May 25, 2016.
