Haylee’s Hopeless Hiccups

They ranged from what kind of cake she wanted for her birthday to what kind of games she wanted to play at the party.

I can’t get rid of these hiccups! They are RUINING my birthday fun!

Haylee exclaimed.

“BUT MOM! What does this have to do with my hiccups?”

Haylee’s mother indicated that the hiccups were a common occurrence among hedgehogs. She explained that they happened naturally and would eventually pass. Haylee was relieved to hear that it wasn’t a cause for concern.

Celtic Illuminated Manuscript

7th-9th Century CE

This movement happened as a time of Christian conversion, as well as migration and upheaval to Europe. Illuminated manuscripts were utilized to teach the gospels of the Bible to the illiterate masses. Ornamental, panoramic, miniatures were used to attract full-page illustrations. Pages that opened each gospel at either important passages were illustrated for illumination. The prefaces, especially were utilized for design. These were enhanced with the use of pith sheets of precious metals and jewels, adhered to the page to supply an emphasis to the narrative. Full pages of decorative designs, like the ones behind the illuminated CE called “carpet pages utilized a large gold structure. Carpet pages, as well as the backgrounds, had designs which were intricate and extremely complex. Carpet pages were filled with decorative linear patterns, called tints, with waves and tails created in rich visual experience. Bright pious blue, yellow, green, and gold were used along side white, brown, and black all of which were made with organic materials such as tannins from staves and plants, some ground into a pigment and mixed with egg yolks or casein, egg yolk. Each page was hand-drawn using inks, now known as capital letters, and built around which were interspersed into codex manuscripts, letters. When they included a passage from the Bible, they would utilize the space to separate the verses of sections into smaller more clearly. These spaces were dedicated to the various chapters of the gospels, like the Gospel of Mark, the Book of Daniel, and the Lindisfarne Gospels. These manuscripts were generally considered to be the largest and most preserved of monasteries in Ireland. Among those are more famous contributions such as Lindisfarne and the Book of Kells. Celtic, the Book of Kells, and the Lindisfarne Gospels are believed to have been made by monks who were skilled in the arts of illuminating manuscripts.
**Butternut Basics**

1. **Choose the right butternut squash**: Look for one that’s firm but not too heavy for its size. The skin should be smooth and unblemished.
2. **Prepare the squash**: Cut off the stem end, then slice off the ends of the squash. Remove the seeds and peel the squash.
3. **Bake the squash**: Preheat the oven to 375°F. Cut the squash into wedges and place them on a baking sheet. Roast for 45 minutes or until tender.

---

**Slice it right!**

1. Cut the squash into wedges, leaving the skin on. Place the wedges on a baking sheet and roast at 375°F for 45 minutes or until tender.
2. Cut the squash into thin slices, leaving the skin on. Place the slices on a baking sheet and roast at 375°F for 45 minutes or until tender.

---

**Quick Ideas**

- **Roasted Butternut Squash**: Cut the squash into wedges, toss with olive oil, salt, and pepper, and roast at 400°F for 40 minutes or until tender.
- **Butternut Squash Soup**: Heat 2 cups of butternut squash, 1 onion, 2 cloves of garlic, and 2 cups of vegetable broth in a pot. Simmer for 20 minutes, then blend until smooth.
- **Butternut Squash and Apple Salad**: Toss chopped butternut squash, apple, and goat cheese with a dressing made from olive oil, lemon juice, and honey.

---

**Instant Fame**

Squashes have been around for millennia. But the butternut is the new kid on the vine. It was introduced in 1998 as a minor version of the crookneck. How does it make squashes more popular? Way to make up for lost time!
