

15.99.01.E1 Use of Human Subjects in Research

Approved April 23, 2015

Reviewed April 5, 2019

Next Scheduled Review: April 5, 2024

Supplements System Regulation 15.99.01

Rule Statement

In accordance with System Regulation 15.99.01, *Use of Human Subjects in Research*, Texas A&M Engineering Experiment Station (TEES) will comply with all applicable laws and regulations relating to human subjects in research. TEES is committed to the protection of human subjects in research conducted by the agency including cooperative research, regardless of the source of funding or whether or not the research is sponsored.

Reason for Rule

This rule is required by System Regulation 15.99.01, and is developed to ensure compliance with all applicable ethical principles and standards of the Belmont Report, April 18, 1979, the Code of Federal Regulations, 45 CFR 46 and all other applicable laws and regulations regarding human subjects in research. Additionally, this document establishes formal procedures and guidelines to ensure protection of human subjects in agency research as well as cooperative research.

Procedures and Responsibilities

1. GENERAL

- 1.1 In accordance with System Regulation 15.99.01, *Use of Human Subjects in Research*, TEES will comply with all applicable standards and ethical procedures including the Belmont Report, April 18, 1979, and the Code of Federal Regulations, 45 CFR 46.
- 1.2 Safeguarding methods for individual rights in research will be consistent regardless of location and regardless of the source of funding or whether the research is funded or unfunded.
- 1.3 TEES Risk and Compliance is the responsible office for compliance associated with TEES awards, and will closely coordinate with the Texas A&M University (TAMU) Office of Research Compliance and Biosafety, Sponsored Research Services (SRS), the principal investigator (PI), and other appropriate parties in the coordination of Institutional Review Board (IRB) approval.

2. PROCEDURES FOR REVIEW AND APPROVAL

- 2.1 All research conducted under TEES, including cooperative research in which human subjects are involved, must be both reviewed and approved

by the TAMU IRB. For more information regarding the approval process, please refer to the [TAMU Office of Research Compliance and Biosafety Web site](#).

- 2.2 SRS is responsible for sponsored research administration for TEES and will notify TEES Risk and Compliance of all compliance issues for TEES involving the use of human subjects in research.
- 2.3 Responsibility for ensuring that all research involving human subjects is submitted to the TAMU IRB for review and approval lies with both the PI and division/department head, in coordination with SRS, and TEES Risk and Compliance.
- 2.4 Policies and procedures for criteria, review, and approval by the TAMU IRB for research involving human subjects will be conducted in accordance with TAMU Rule 15.99.01.M1, *Human Subjects in Research*.

3. COMPLIANCE

Reports and allegations of noncompliance with applicable laws, policies, regulations, rules, and procedures may be submitted to the Director for Risk and Compliance at TEES, the Human Subjects Protection Program (HSPP) at the TAMU Office of Research Compliance and Biosafety, or via the [TAMUS Risk, Fraud, and Misconduct Hotline](#).

4. RECORDKEEPING

Records will be kept in accordance with System Regulation 15.99.01 and TEES procedure 61.99.01.E0.01, *Records Management*.
